Summary

Aspiring Data Analyst and BCA graduate with strong skills in SQL, Python, and Power BI. Experienced in data cleaning, transformation, and visualization to deliver actionable business insights. Skilled in building interactive dashboards, performing EDA and reporting key KPIs to support data-driven decision-making. Passionate about leveraging analytics to optimize processes and uncover trends in real-world datasets.

Education

• Maulana Abul Kalam Azad University of Technology, Kolkata

BCA, Bachelor of Computer Applications (CGPA: 7.33, 2022-2025)

Technical Skills & Certification

- **Data Analytics & Visualization:** Data Cleaning & Transformation, Exploratory Data Analysis (EDA), Power BI, Matplotlib, Seaborn, KPI Dashboards, Excel (Pivot Tables, VLOOKUP, HLOOKUP, Power Query).
- **Business Intelligence & Reporting:** Interactive Dashboards, Trend & Variance Analysis, Business Insights presentation.
- **Programming & Databases:** Python, SQL, Excel Automation.
- **Data Handling & Processing:** Data Wrangling, Data Validation, Data Quality Checks, ETL.
- **Core Competencies:** Data Analysis & Visualization, Statistical Analysis, Reporting & Documentation, Problem-Solving & Insights Generation
- **Certification:** Career Essentials in Data Analytics (Microsoft & LinkedIn)

Key Projects

• Diwali Sales Analysis (Excel, Python)

- Performed end-to-end (EDA) on Diwali sales data to understand **customer purchasing behavior** during the festive season.
- Analyzed **gender- and age-wise** spending patterns to uncover key customer demographics.
- It was found that customers aged **26–35**, especially **females**, spent the most, with **Uttar Pradesh, Maharashtra**, and **Karnataka** generating the highest revenue.
- Visualized insights using **Seaborn** and **Matplotlib** to support business-friendly interpretation.
- Planned to extend the project by building an interactive BI dashboard for dynamic sales insights.

• Blinkit Sales Analysis (Excel, MySQL, Power BI)

- **Low-fat** items generated the **highest total sales** and received better average ratings than regular-fat products.
- **Fruits and vegetables** were top-selling categories, followed by snack foods. **Dairy items** were sold in high volume but with low revenues
- Outlets established after **2015 generated higher sales** compared to older ones.
- **Medium-sized outlets** accounted for **45%** of total sales — outperforming both small and large ones.
- **Tier 1 cities** generated the highest sales, showing strong customer engagement and market penetration.

Professional Strengths

- Analytical Thinking & Data Storytelling
- Cross-Functional Collaboration
- Structured Problem Solving
- Time Management & Attention to Detail
